## PDQ SIGNATURE SYSTEMS RECEIVES “PACESETTER AWARD” FOR POS INNOVATION AT RSPA’S RETAILNOW® CONFERENCE

### Honors Leading-Edge Work with PCI Compliant Mobile EMV Integration

Largely due to its innovative and prominent work in adopting a comprehensive, PCI compliant mobile EMV solution, including pay-at-the table, pay-at-curbside and pay-at-the-door, PDQ Signature Systems, a leading provider of feature-rich point of sale solutions to the restaurant industry, was recently awarded the Point of Sale Pacesetter Award at RetailNow®, an annual conference held by RSPA, the Retail Solutions Providers Association.

*Business Solutions Magazine* (BSM) partnered with RSPA for this award, which recognizes the most innovative solution providers in the POS ecosystem. “We are very excited to recognize solution providers who are advancing our industry,” said Mike Monocello, chief editor of *Business Solutions*. “These companies exemplify the kind of innovative mindset that we write about in our magazine and on our website.”

“We’re pleased to partner with BSM to not just recognize these worthy innovators, but to also help share their stories with our community so that others can learn and be inspired,” said Kelly Funk, RSPA President and CEO.

By leveraging innovative technology solutions to deliver leading-edge products in an ever-changing retail environment, PDQ Signature Systems has been touted as an industry visionary with regard to POS features, speed, reliability and holistic cyber-security. “By always remaining ahead of the technological curve,” says **John White**, EVP & CTO for Signature Systems, “we’ve positioned ourselves to receive meaningful accolades by marketplace experts, including the Point of Sale Pacesetter award from *Business Solutions Magazine* and RSPA.”

**Business Solutions** is the channel leader in educating solutions providers on the most cutting-edge technologies in the retail, hospitality, and grocery verticals.

**RSPA** is the trade association comprised of Resellers, ISVs, manufacturers, payment processors, card brands, distributors, and others in the point of sale and technology ecosystem. RetailNOW is the premier conference and expo for professionals in the Point of Sale and retail technology industry. RetailNOW is where the industry meets each year for education on new business trends, emerging technologies and best business practices along with exploring a diverse exhibit hall.

**PDQ Signature Systems**, an innovative, leading-edge technology solutions company, is a provider of full-featured, fully integrated point-of-sale systems and comprehensive, complaint cyber-security platforms. Based upon PDQ Security, a holistic combination of unified security intelligence and the synchronous security of next-gen Unified Threat Management with next-gen Endpoint, Signature Systems can protect every aspect of a customer’s enterprise from data breaches and cyber-threats, while ensuring regulatory compliance with PCI. For over 30 years, PDQ Signature Systems has been providing its acclaimed solutions to the POS marketplace throughout the U.S. and Canada. Learn more at PDQpos.com and PDQsecurity.com.
