

Retail **CIO** Outlook

Signature Systems, Inc. Named to Retail CIO Outlook's Top 10 Retail POS Solution Providers 2016

FREMONT, CA—November 07, 2016—Signature Systems, Inc. earns a place in the list of “Top 10 Retail POS Solution Providers 2016” by Retail CIO Outlook.

“It’s a great honor to announce **Signature Systems, Inc. as one of the Top 10 Retail POS Solution Providers for 2016,**” said Katie William, Managing Editor of Retail CIO Outlook. “Signature Systems, Inc., an acclaimed 30-year leader in quick service and pizzeria point of sale systems, has leveraged its diverse knowledge capital to provide an award-winning compliant, comprehensive cyber-security package—one that works seamlessly with any client’s legacy environment.”

With the growing sophistication of cyber-attackers worldwide and the accruing complexity and cleverness of malware, viruses and other cyber threats, Signature Systems has laser-focused its unique skills set on providing PCI compliant, next-gen data security packages for both POS (point-of-sale) and non-POS clients.

“We’re honored to be recognized—*once again*—as a top POS solution provider,” said **John White, EVP/CTO for Signature Systems.** “Our unified **PDQ Security** platform solves a vital industry need, as it provides seamless iron-clad security to a client’s *entire* environment—essentially protecting both the front and back doors, the latter of which was often overlooked by other POS providers.”

About Signature Systems, Inc.
