8-INCH TABLET

With a gorilla glass touch screen, IP65 rating, wifi connectivity, bluetooth connectivity and weater-resistant build, your staff can take orders from anywhere no matter the conditions.

4G or 5G Models Available

7"/10" TABLET

Just like the 8-inch tablet, this mobile or stationary option is built to help your staff take orders from anywhere, in a smaller, sleeker package.

4G or 5G Models Available

HARDWARE

COUNTER STATION

Our standard counter station, trusted by tens of thousands of owners, operators, managers and servers across the country for more than a decade because of it's dependability and ease of use. Available with an optional slim MSR, 2D barcode reader, EMV reader, and pin pad mounts.

HARDWARE

15.6 INCH DISPLAY W/ CUSTOMER DISPLAY

Large screen legibility and functionality for staff and a sleek, bright screen for advertising LTOs and displaying orders to customers.

11.6 INCH DISPLAY

Compatible with all POS peripherals, this display is light, sleek and space efficient to fit in virtually any space where orders can be taken.

AVAILABLE AS A REAR DISPLAY

THREE-IN-ONE DISPLAY

Our three-in-one unit is among the latest offerings from PDQ. Functioning as a POS, customer display and self-order kiosk, the unit enables guests to place their own orders when staff is unavailable or when they've clocked out after normal working hours. Your service doesn't have to stop when staff is unavailable.

PERIPHERALS

8" TOUCH REAR DISPLAY

A small-footprint interactive display for customers to see transaction info, marketing or to augment their order.

PIN PAD MOUNT

Displays transaction info, price totals and accepts all forms of card-based payment while removing the need for staff to process payments.

VIDEO POLE DISPLAY

The smallest profile mountable customer-facing display. Displays items, UPCs, prices and price totals.

PERIPHERALS

CARD SWIPE PINPAD

Taking a variety of payment options, our card swipe pinpads are among the most secure in the industry, cutting down on costly fraud or scams. Screens can also be configured to display advertisements or marketing.

CASH DRAWER

Theft-resistant and secure, our cash drawers are manufactured to meet industry standards while remaining in working condition for decades.

MSR CARD READER

Our card readers can be integrated with virtually any loyalty option.

MINI CASH DRAWER

13" by 13" in black; media with a 5-bill drawer and 8-coin insert, this cash drawer is the go-to solution to cash handling with our 11.6-inch displays (page 3)

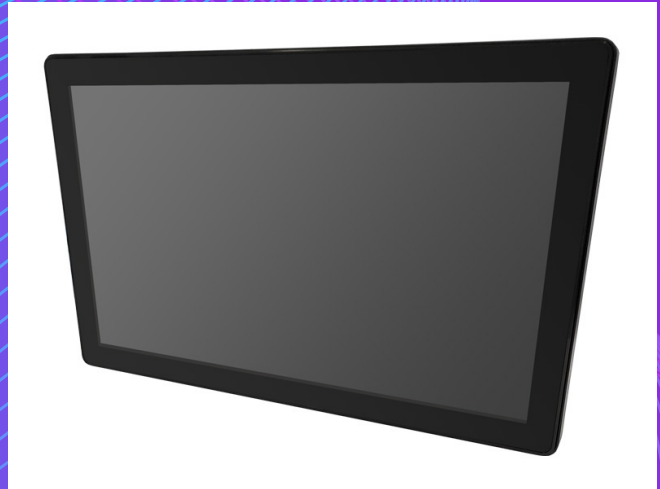

VDUs/KDS

15 IN. MONITOR & BUMP BAR

Controlled by the bump bar, the 15 in. monitor & bump bar combo unit is a perfect replacement for the ticket system commonly used in kitchens, lowering paper-use and increasing efficiency in expediting customer orders.

22 IN. ALL-IN-ONE PC

Water and dust-proof, this all-in-one unit has immense versatility in its applications across virtually all hospitality settings. Featuring a variety of ports and integrations, the LED LCD screen is as legible as it is durable.

DIGIVUE SIGNAGE PC

Supporting up to four separate video displays at a transmission distance of 300ft, this PC is the solution to digital signage in any application.

PERIPHERALS

BARCODE SCANNER

Scan barcodes on a variety of items more easily. Coming with a quick charge base, this scanner is always ready in retail environments.

MINI RECEIPT CHARGER

Charge multiple mobile receipt printers (page 8) at once from a single station, so that your staff never has to delay or fail to deliver a receipt.

FINGERPRINT READER

Make logging in for yourself, your managers and your other staff a breeze. Simply configure the fingerprint reader and save precious seconds at every login and manager override.

COUNTER MOUNT & BACKPLATE

Mount needed screens and peripherals to any flat surface with this counter mount & backplate combo.

PERIPHERALS

MENU BOARD

Integrated into PDQ POS, digital menu boards advertise menu offerings, promos, events and other notable information to your customers. Updateable from a POS station, menu boards are easy to use and effective for increasing order speed and ticket value.

MULTI-TABLET DOCK

Charge up to five tablets per docking station, ensuring that your servers never have to search for a cable or find that their tablet wasn't charged over night.

PRINTER DOCK CHARGER

Charge a single printer dock easily and conveniently with this printer dock charger.

PRINTERS

MOBILE HIP PRINTER

This ultra-compact printing solution ensures that customers can receive their proof of purchase no matter where they are making their order and feel confident in their purchase.

SLIM PRINTER BASE

This tablet base includes a printer for the lowest profile solution to printing customer receipts.

RECEIPT PRINTER

Built for speed, reliability and flexibility, this thermal printer can be connected via serial, USB or ethernet to integrate with any system. With the latest in auto-cutter technology, this receipt printer is less likely to jam even during the busiest times.

IMPACT PRINTER

Ergonomically designed, this impact printer is built to save on space and make loading paper as easy as possible.

QSR ADD-ONS

TABLET POUCH

Protect those tablets from drops and scratches with this tablet pouch. Comfortable to wear, the tablet pouch allows staff to keep their hands free between taking orders, so that they can help with bussing, food running or any other task and still be ready to take an order in seconds.

POLE DISPLAY

Allow customers to easily see what's being rung up and what price they are paying, speeding up check out times and cutting down on server mistakes.

LABEL PRINTER

Easily print labels of any type. This Epson label printer is quick and easy to use.

KIOSKS

FREESTANDING KIOSK

Take payments in any environment, with the freestanding kiosk. With minimal points where dirt and germs can build up, this kiosk remains clean, even in the most demanding environments. The kiosk can also be easily relocated, provided that a manager or facilities professional removes the four anti-theft screws that keep the unit in place and from being tampered with.

KIOSKS

OUTDOOR KIOSK

Self-ordering from the car or on foot in any environment. This kiosk is built to withstand rain, heat and freezing temperatures allowing customers to make their orders anytime, in any environment and protected by outdoor-rated compression security locks.

KIOSKS

CASH KIOSK

Receive and disburse payments via cash with this kiosk. Designed for extreme security, this kiosk can withstand virtually any environment and operate completely unattended.

KIOSKS

DESKTOP KIOSK

This desktop kiosk offers the same great user experience of a free-standing kiosk in a more compact model, saving space and giving customers even more places to make an order from.

ABOUT SIGNATURE SYSTEMS

Signature Systems, Inc., has been an award-winning food and hospitality tech provider for over 35 years. The company's signature product, PDQ POS has been successfully deployed in tens of thousands of food and beverage and retail operations, including table service and quick service restaurants, coffee shops, hotels, casinos, sports venues, travel hubs, and select retail outlets. The most comprehensive physical sales environment currently on the market, PDQ POS offers industry-leading features including custom Online Ordering, 3rd Party Ordering/ Delivery Fulfillment, Loyalty, Kiosks, Digital Menu Boards, Enterprise Reporting, and PDQ Security® (our acclaimed PCI DSS data and cybersecurity platform). PDQ POS has helped its thousands of customers save time, effort, and costs (including labor); increase orders and average ticket sales; protect their investment; and remain true to their valued brand. Signature Systems Inc., privately held, debt-free, and profitable, employs 100+ W2 employees located throughout the US, with most working from our 40,000 sq. ft. state-of-the-art headquarters just outside of Philadelphia, PA.
